Based on an overarching choice of issues, the course furnishes a synoptic overview of the history and art history in Germany. Developments in history, constitutional history, cultural and art history as well as cultural geography and ethnology are pointed out in essence to impart important knowledge about the formation and the current appearance of the German state and its people.

Intended learning outcomes

Students gain an overview of the key developments in German history and art and thereby deepen their basic knowledge of one or more chronological or thematic areas under the consideration of various important aspects. They are able to integrate this area/these areas in an overall context and to identify interdependencies. They expand their frame of reference to European and non-European aspects. They are able to choose suitable tools and methods and to deploy them appropriately. The students are able to critically analyse and interpret sources and specialised literature as well as to present their evaluations in an appropriate manner.
