Recognizing challenges in the science of sport and understanding educational basics of sports		05-SP-GHR-SPPS-092-m01
<b>Module coordinator</b>		<b>Module offered by</b>
head of Centre for Sports and Physical Education		Centre for Sports and Physical Education
<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
5	numerical grade	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	undergraduate	--
<b>Contents</b>		
<p>In this module we discuss questions and issues of sports science and examine them in view of interdisciplinary theories (natural and human sciences). We focus on broadening our knowledge about central principles of sports education and establish connections to topics from movement, game and sports culture. The students acquire interdisciplinary scientific knowledge about the backgrounds and topics of sports. Therefore, they develop the ability to understand and analyse actions of sports and movement culture in view of human sciences. They acquire this knowledge by attending the lecture about sports education that discusses the basic principles of physical education in the context of sports activities and conveys basic knowledge about education theory and its historical principles.</p>		
<b>Intended learning outcomes</b>		
<p>The students acquire essential professional skills in sports education and in work and research methods of sports science. They know the principles of movement culture regarding education theory and are able to establish connections to sports practice. Furthermore, they have acquired differentiated professional and methodological competencies in the area of sports education by examining and comparing central terms, systematics, models, concepts and methods of the disciplines of sports science that are relevant to humanities.</p>		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)		
V + V (no information on SWS (weekly contact hours) and course language available)		
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
written examination (approx. 60 minutes)		
<b>Allocation of places</b>
