<th>Contents</th>
</tr>
</thead>
<tbody>
<tr>
<td>Visual simulation and deprivation as a tool for lesson planning in pedagogy of visual impairments and blindness; positive and negative aspects of the simulation of disability; playful exercises on auditory vigilance; playful exercises on non-visual descriptions of complex visual offers in the supermarket; blind cooking; blind tasting; deprivation in challenging and quaint situations.</td>
</tr>
</tbody>
</table>

**Intended learning outcomes**  
Students are able to evaluate simulation and deprivation regarding their pedagogical use in a theory-driven manner and with due detachment; they are able to document, evaluate, and discuss their own experiences; they are able to plan and execute exercises on simulation and deprivation while taking relevant safety aspects into account; they are able to use simulation and deprivation as a tool for planning lessons.

**Courses**  
(type, number of weekly contact hours, language — if other than German)  
S (2) + Ü (1)

**Method of assessment**  
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)  
1) portfolio (approx. 15 pages) or 2) presentation (approx. 20 minutes) with term paper (approx. 8 pages) or 3) oral examination of one candidate each (approx. 20 minutes) creditable for bonus

**Allocation of places**
