Contents		
Students work on a topic independently related to special pedagogy in the context of visual impairment and blindness. The topic is chosen in consultation with the supervisor and the aim is to write a scientific thesis.		
Intended learning outcomes		
The students are able to familiarise themselves independently with a predetermined question regarding special pedagogy in the context of visual impairment and blindness and use literature relevant to the topic to answer the question. They apply the knowledge and methods they have gathered during the teaching degree programme. They are capable of representing the results of their work in written form according to scientific standards.
