

Module title		Abbreviation
Scientific work in the special pedagogy in the context of visual impairment and blindness		o6-B-WISS-V-232-m01
Module coordinator		Module offered by
holder of the Chair of Special Education VI		
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Fundamental work of pedagogy, didactics and diagnostics in the education of visual impairment; publication organs of the discipline in German and English-speaking regions; interdisciplinary publication organs and connections to the reference sciences; critical studies in the context of blindness; blindness as a category of the Disability Studies; visual impairment in social media and popular media; scientific writing; scientific methods; research and citation in literature.		
Intended learning outcomes		
Students will become familiar with foundational works and literature in the field of visual impairment education. They will become familiar with common publication organs and be able to assess their value and justification in terms of content; they will be able to situate visually impaired education in the context of related sciences and explain cross-connections. They can critically analyse the representation of visually impaired people in the media from different perspectives and have an overview of central scientific approaches. They research effectively and can analyse and explain their findings. They can compose, format and write scientific texts.		
Courses (type, number of weekly contact hours, language – if other than German)		
S (2) + Ü (1)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
1) written examination (approx. 60 minutes) or 2) portfolio (approx. 10 pages) or 3) presentation (approx. 20 minutes) with term paper (approx. 8 pages) creditable for bonus		
Allocation of places
