### Module title
Spatial and temporal aspects of education

### Abbreviation
06-BW-BUB-152-m01

### Module coordinator
holder of the Chair of Systematic Educational Science

### Module offered by
Institute of Pedagogy

### ECTS
5

### Method of grading
numerical grade

### Only after succ. compl. of module(s)
--

### Duration
1 semester

### Module level
graduate

### Other prerequisites
--

### Contents
In this module we focus on evaluating pedagogical processes in view of space and time. We discuss and evaluate basic problems and requirements of education in view of temporal compression.

### Intended learning outcomes
The students know about the connection between temporal and spatial theories and basic questions and problems of educational sciences. They are able to discuss and evaluate the requirements of education on the basis of current and past theories of space and time.

### Courses
(type, number of weekly contact hours, language — if other than German)
S (3)

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (approx. 120 minutes) or b) oral examination of one candidate each (approx. 30 minutes) or c) presentation (15 to 30 minutes) and written elaboration (10 to 15 pages) or d) term paper (15 to 20 pages)

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)
