Contents		
This course conveys basic ideas and concepts, scientific methods, models and approaches, and, especially theological argumentation strategies in the fields of the criteria of discrimination of handicap, age, and health.		
Intended learning outcomes		
Students will acquire the basic concepts concerning the criteria of discrimination of handicap, age, and health with regards to a profession in diversity management. They are able to distinguish between different models, approaches, and argumentations in these fields. Furthermore, students are able to name social key problems of handicap, age, and health. Students can identify mechanisms of exclusion and practices of inclusion while assessing current examples.
