Contents		
Approaches to and results of childhood studies, education processes, infantile forms of expression and work placement.		
Intended learning outcomes		
The students know results of childhood studies that are relevant to elementary education and have knowledge of cognitive, social, physical, emotional and aesthetic education processes. They know infantile forms of expression and can evaluate their meaning for child development. Therefore, they are able to understand and support development and education processes of children in a pedagogical manner. Furthermore, the students acquire practical orientational knowledge and continue learning on their own authority. They especially focus on gaining basic insights into institutions/organisations and on evaluating their own professional self-perception and ethics.
