Further didactic models based on the knowledge already acquired, specific teaching concepts as well as questions of planning and realising classes in the support focus area of mental development. Principles of developmental psychology, psychology of learning and social psychology in the context of mental disabilities.		
Intended learning outcomes		
The students are able to deal with fundamental questions of didactics and psychology in the context of mental disabilities. They have advanced basic knowledge and orientational knowledge of didactics and are able to compare, evaluate and apply the meaning of basic didactic concepts, didactic models and teaching concepts for teaching and learning in the support focus area of mental development. The students apply basic and orientational knowledge of psychology to current questions of everyday working life. They are able to link psychological terms to individual theories and to use these terms in scientific works.
