Contents		
Theory-driven class planning; conceptualising own classes; problems regarding school laws and school practice; institutional questions, exemplary connections between theory and practice, questions of applying general and subject didactics.		
Intended learning outcomes		
The students advance their professional competence by applying and reflecting their knowledge and experiences from previous modules in a methodological manner. The work placements and the subsequent counselling boost the students' self-competence and encourage them to ask questions about the necessary qualifications and personality traits of Special Education teachers. They advance their methodological competence by practising and scientifically reflecting their skills.
