

Module title		Abbreviation
Introduction to didactics and psychology of learning in the context of Developmental and Intellectual Disabilities 2		o6-G-PsyDi2-092-m01
Module coordinator		Module offered by
holder of the Chair of Special Education IV		Chair of Special Education IV: Education for People with Developmental and Intellectual Disabilities
ECTS	Method of grading	Only after succ. compl. of module(s)
7	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Further didactic models based on the knowledge already acquired, specific teaching concepts as well as questions of planning and realising classes in the support focus area of mental development. Principles of developmental psychology, psychology of learning and social psychology in the context of mental disabilities.		
Intended learning outcomes		
The students are able to deal with fundamental questions of didactics and psychology in the context of mental disabilities. They have advanced basic knowledge and orientational knowledge of didactics and are able to compare, evaluate and apply the meaning of basic didactic concepts, didactic models and teaching concepts for teaching and learning in the support focus area of mental development. The students apply basic and orientational knowledge of psychology to current questions of everyday working life. They are able to link psychological terms to individual theories and to use these terms in scientific works.		
Courses (type, number of weekly contact hours, language — if other than German)		
This module comprises 2 module components. Information on courses will be listed separately for each module component. <ul style="list-style-type: none"> o6-G-PsyDi2-1-092: S (no information on SWS (weekly contact hours) and course language available) o6-G-PsyDi2-2-092: S (no information on SWS (weekly contact hours) and course language available) 		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
