Contents		
<p>We discuss special tasks and methods of the promotion of communication as well as theories about human communication. We examine possibilities of physical and non-physical communication for children and juveniles with different impairments/handicaps. Diagnostic questions support the planning and reflection of individual support measures. Different focus areas cover the variety of possibilities of promoting communication.</p>		
Intended learning outcomes		
<p>The students acquire basic knowledge of varied fields of the promotion of communication in FSkmE. The students become acquainted with special tasks and methods in the field of the promotion of communication competencies. They carry out and evaluate analyses of individual conditions, identify and evaluate individual requirements and deduce possible support measures.</p>
