| The students have to individually work on an assigned problem in the field of Human-Computer Interaction and document their results using good scientific standards. | | |
| Intended learning outcomes | | |
| Participants will learn how to apply scientific methods from the HCI field. They will learn a structured approach starting from a definition and motivation of research questions and the discussion and summary of related work from scientific publications and prior approaches. Following this they will learn how to develop own concepts and methods to tackle the questions and how to implement them and potentially to evaluate the results. | | |
