

Module title		Abbreviation
Work experience as a research and teaching assistant		o6-HCI-B-ASQ-242-m01
Module coordinator		Module offered by
chairperson of examination committee of the Bachelor's degree programme Human-Computer Interaction		Institute of Human Computer Media
ECTS	Method of grading	Only after succ. compl. of module(s)
5	(not) successfully completed	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
The students work as tutors (research and/or teaching assistants) in the context of the Bachelor's program Human-Computer Interaction (HCI) and/or the Master's program Human-Computer Interaction (HCI, German: Mensch-Computer-Interaktion). The work tasks are determined individually and include typical activities from the academic work environment.		
Intended learning outcomes		
After participating in this module, students will be able to moderate learning processes, lead discussions and conduct results-oriented conversations with students. They are able to recognize progress and stagnation of individual project groups or project participants and provide assistance or offer problem-solving strategies. Competencies are taught in two areas. In the course of working as a teacher, participants will learn to teach others in topics related to the field of HCI. They will gain a better understanding of the problems students encounter in learning. While working as a research assistant, participants will gain hands-on experience with the methods of scientific work.		
Courses (type, number of weekly contact hours, language — if other than German)		
P (o)		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
report (approx. 2 pages)		
Allocation of places
