Module title	Abbreviation
Selected Areas of Psychology	06-HCI-B-SGP-242-m01

Module coordinator	Module offered by
holder of the Chair of Psychological Ergonomics	Institute of Human Computer Media

ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--

Duration	Module level	Other prerequisites
1 semester	undergraduate	--

Contents

In the lecture, the module for human-computer interaction studies teaches fundamentals of psychology in the sub-aspects: Emotional and Motivational Psychology, Social Psychology, Personality and Differential Psychology, and Organizational Psychology. In the exercise, examples are given of how this knowledge can be applied or researched in human-computer interaction.

Intended learning outcomes

After participating in the module courses, the students are able to reproduce the basics of the sub-aspects of psychology and to delineate the individual sub-aspects. Furthermore, the students are able to recognize and evaluate the relevance of the sub-aspects in the human-computer interaction. The exercise enables the students to present and discuss the contents.

Courses (type, number of weekly contact hours, language — if other than German)

V (2) + Ü (1)
Module taught in: German and/or English

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

written examination (approx. 90 minutes)
Language of assessment: German and/or English
creditable for bonus
