Contents		
Presentation and communication are important skills for application-oriented and practical aspects of various sciences. This is specifically true for Human-Computer Interaction (HCI). This course requires the participants to present the results of an associated project to a larger audience in a and exhibition-like setup.		
Intended learning outcomes		
After participating in this module, participants will be able to present their own work to a larger audience, plan, design and implement the various components of a trade show booth and respond professionally to individual questions from the audience.
