Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
This module is aimed at providing an advanced introduction in the scientific psychological perspective on online and mobile media use. Current theories and results on human experience and behavior in the context of online and mobile communication are introduced.		
Intended learning outcomes		
Students have intensified their abilities to structure and describe online and mobile communication phenomena from a scientific psychological perspective. Students acquire in-depth knowledge about current theories and results on human experience and behavior in the context of online and mobile communication.
