

Module title		Abbreviation
Scientific Internship		o6-HCI-WPrakt-182-mo1
Module coordinator		Module offered by
chairperson of examination committee of the Master's degree programme Human-Computer Interaction		Institute of Human Computer Media
ECTS	Method of grading	Only after succ. compl. of module(s)
10	(not) successfully completed	--
Duration	Module level	Other prerequisites
	graduate	--
Contents		
The scientific internships provide insights into research in the fields of HCI, user experience, usability or human factors in scientific research institutions. The students should apply and deepen the knowledge and skills acquired during their studies in scientific research.		
Intended learning outcomes		
After participating in this module, students will be able to apply theoretical and practical aspects of their studies to new research questions. Through contact with the world of research, they develop methodological, social and personal skills and create a scientific basis for their future professional activity.		
Courses (type, number of weekly contact hours, language – if other than German)		
P (0)
