Contents
The module gives insights into processes of interaction and communication in class and school. It includes teachers, pupils and parents. Dealing with teaching processes under difficult conditions provides a detailed insight into the tasks and work methods of teachers in FSkmE (special-needs schools focusing on physical and motor development).

Intended learning outcomes
The module complements the practical experiences of students in FSkmE (special-needs schools focusing on physical and motor development). The students have advanced skills in assessing pedagogical and didactic teaching situations and are therefore able to critically evaluate their own personality as a teacher. Their knowledge enables them to combine teaching situations with suitable pedagogical or didactic-methodological offers. Therefore, they are able to combine the theoretical and practical part of their degree course.
