

Module title		Abbreviation
Practice/Job-oriented Internship		o6-MCS-BPrakt-152-mo1
Module coordinator		Module offered by
chairperson of examination committee of the Master's degree programme Human-Computer Interaction		Institute of Human Computer Media
ECTS	Method of grading	Only after succ. compl. of module(s)
10	(not) successfully completed	--
Duration	Module level	Other prerequisites
	undergraduate	--
Contents		
The module provides insights into the professional activities of experts for user experience, user interface development, usability and/or human factors in institutions related to the subject and/or in the private sector. Students apply the knowledge acquired during their studies in practice and deepen it.		
Intended learning outcomes		
After participating in the module courses, students are able to apply subject content and methods of the field of study in new and practical tasks. Students will be able to develop problem-solving proposals in work environments new to them and communicate in teams. They make their first contacts with the professional world, create a basis for their later career choice and improve their employability.		
Courses (type, number of weekly contact hours, language — if other than German)		
P (0)		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
report on practical course (approx. 2 pages)		
Allocation of places
