<b>Contents</b>		
Presentation and communication skills are important for application-oriented and practical aspects of various sciences. This is particularly true for human-computer interaction (HCI). This course requires participants to present the results of an associated project to a larger audience in an exhibition-like setup.		
<b>Intended learning outcomes</b>		
The participants will learn how to present their own work to a larger audience, how to plan, design and set-up the different parts of an own exhibition booth, and how to react individually to questions from the audience.		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)
