Module title: Interactive Systems 2  
Abbreviation: 06-MCS-IntSy2-101-m01

Module coordinator: holder of the Chair of Computer Science IX  
Module offered by: Institute of Computer Science

ECTS: 5  
Method of grading: numerical grade

Duration: 1 semester  
Module level: undergraduate

Other prerequisites: --

Contents

Artificial Intelligence (AI) studies the science and engineering of making intelligent machines, that is, methods which let machines or software exhibit intelligent behaviour. This course specifically concentrates on interactive methods applicable to novel human-computer interfaces and computer games. The course will cover topics about problem solving in general, search methods, semantic representation, logic and deduction methods, constraint satisfaction methods, as well as algorithmical approaches to apply these methods to interactive systems. The latter includes the identification of necessary software modules and requirements for AI-enabled systems as well as APIs for building so-called world interfaces.

Intended learning outcomes

After the course, the students will have a broad understanding of the underlying theoretical models and methods used in interactive Artificial Intelligence. They will be able to implement a prominent variety of these methods, to build their own intelligent interactive applications, and to choose the right software tool for this task.

Courses

S + V + Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment

Specialisation assessment. Unless otherwise specified, the following methods can be chosen from for assessment in the specialisations Human-Computer Systems: a) written examination (approx. 75 minutes) and presentation of project results (approx. 15 minutes), b) presentation (approx. 20 minutes) and written elaboration (approx. 5 pages), c) presentation (approx. 20 minutes) and presentation of project results (approx. 20 minutes), d) presentation (approx. 20 minutes) and presentation of project results (approx. 75 minutes), or e) term paper (approx. 10 pages).

Language of assessment: German or English

Allocation of places
