

Module title		Abbreviation
MCS Project Psychology		o6-MCS-Proj-Psy-152-mo1
Module coordinator		Module offered by
chairperson of examination committee of the Master's degree programme Human-Computer Interaction		Institute of Human Computer Media
ECTS	Method of grading	Only after succ. compl. of module(s)
12	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Hands-on experience is a necessary skill for application-oriented aspects of human-computer interaction (HCI). In this course, groups of students work on a well-specified project or work task, which they are expected to solve mainly independently. The topic comes from the psychological aspects of human-computer interaction and may include design, evaluation, and research aspects.		
Intended learning outcomes		
After participating in the module events, students can apply their methodological and content knowledge with a psychological focus. They are able to work in a team according to structured processes and develop their methodological competence, communicative competence, cooperation skills and ability to deal with conflicts.		
Courses (type, number of weekly contact hours, language – if other than German)		
Ü (2)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
report (approx. 10 pages) Language of assessment: German and/or English creditable for bonus		
Allocation of places
