

Module title		Abbreviation
Bachelor's Thesis		o6-MCS-Thesis-101-m01
Module coordinator		Module offered by
chairperson of examination committee of the Master's degree programme Human-Computer Interaction		Institute of Human Computer Media
ECTS	Method of grading	Only after succ. compl. of module(s)
12	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
The students have to individually work on an assigned well-defined problem in the field of Human-Computer Interaction and document their results using good scientific standards.		
Intended learning outcomes		
Participants will learn how to apply scientific methods from the HCI field. They will learn a structured approach starting from a definition and motivation of research questions and the discussion and summary of related work from scientific publications and prior approaches. Following this they will learn how to develop own concepts and methods to tackle the questions and how to implement them and potentially to evaluate the results.		
Courses (type, number of weekly contact hours, language – if other than German)		
C (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
written thesis (approx. 30 pages) Language of assessment: German or English		
Allocation of places
