Contents		
In this module we discuss theories, methods and application fields of empiric educational research. Theories cover descriptions of and explanations for education and learning processes, research methods comprise quantitative and qualitative evaluation methods and research designs. We carry out an independent examination to study and test practice-oriented application fields.		
Intended learning outcomes		
After successfully completing this module, the students are able to independently conduct empirical studies in the field of educational research in a scientific and methodical manner. Furthermore, they are able to apply recent methods to evaluate their results and to relate these results to theoretical concepts.
