<b>Contents</b>		
The module provides deeper knowledge of the topics (concepts, theories, empirical analysis and practice) in media communication. Out of the four core areas of the degree programme (media psychology, media and business communication, media computer science, instructional psychology), one area or a combination of several areas may be addressed.		
<b>Intended learning outcomes</b>		
Students have gained expertise and social skills that are useful in basic, applied or contract research. They do not only have profound knowledge in the central subject areas, theories and methods of media communication but are also able to use this knowledge to solve research questions. In addition, they have acquired theoretical, empirical and application-oriented skills that may be useful in job-related situations (e. g. in the design of media formats and in the evaluation of media products).
