Contents		
This module will provide deeper knowledge about topics (concepts, theories, empirical analysis and practice) in instructional psychology. In small groups, students will do empirical research in instructional psychology.		
Intended learning outcomes		
Students have obtained subject-specific expertise and social skills that are useful in the workplace. Thus, students do not only have subject-specific knowledge about central topics, theories and methods of instructional psychology but are also able to apply this knowledge in practice and use it as a basis for the Master's programme. In addition, students have gained theoretical, empirical and application-oriented skills that will be useful in their future jobs (e. g. the design of learning environments and the evaluation of eLearning).
