Contents

This module aims to provide deeper knowledge about selected topics (concepts, theories, empirical analysis and implementation) in computer science in media. Students work in small-groups on practice-oriented projects, create digital artifacts and present them.

Intended learning outcomes

Students should obtain practical expertise that is an asset in the workplace (e .g. in the design of digital media). Thus, students do not only have profound knowledge in the design of digital media but are also able to apply this knowledge in practice and use it as a basis for the Master's programme.
