Contents		
Theories, methods and results of empirical educational research are the subject of this module. In addition to basic questions about the structure of the education system and about educational pathways as well as the acquisition of competences, another focus is put on the evaluation research of the education system.		
Intended learning outcomes		
The students have acquired basic knowledge about empirical educational research. They know the instruments and methods in order to gather information about actual circumstances of education as well as the concepts, standards and functions of evaluation in the education system. Furthermore, they are able to carry out evaluation studies on a practical level.
