Contents		
<p>The lecture discusses basic aspects of psychological intervention (history, scientific foundation, diagnostics). It addresses the principles of evidence-based psychotherapies. A seminar or a lecture named Intervention II elaborates on these principles. The seminar or lecture discusses the advancements of the corresponding psychotherapies.</p>		
Intended learning outcomes		
<p>The students are given the opportunity to acquire broad (lecture I) knowledge of evidence-based therapeutic interventions. The seminar/lecture II deals with recent developments and individual intervention modules. Therefore, the students should have basic and advanced knowledge of Intervention Psychology at the end of the module. To acquire this knowledge, the students have to participate in the respective courses and read the corresponding literature.</p>
