<p>The seminars teach characteristics, goals, duties, indications and methods related to prevention and rehabilitation. One seminar focusses on theoretical, scientific and health aspects of prevention and rehabilitation related to general and specific concepts of psychopathology in children, adolescents, adults including older ages. Another seminar is more applied by discussion specific prevention and rehabilitation programs for different age groups. Examples are: prevention of psychological disorders after trauma or somatic disease; prevention of alcohol and drug abuse in children and adolescents as well as older populations; rehabilitation after somatic diseases and drug addiction in elder patients; neuropsychological rehabilitation; prevention and rehabilitation in behavior medicine.</p>		
<b>Intended learning outcomes</b>		
<p>The students will learn basic and applied competence in the area of prevention and rehabilitation differentiated for different age groups. They will be able to evaluate the scientific quality of prevention and rehabilitation programs. Practical competence in conduction prevention and rehabilitation programs will be acquired by means of tutorials. These goals can only be achieved by regular attendance, active participation and active lecture work.</p>
