Contents		
<p>The lecture deals with fundamental aspects of psychological interventions (history, scientific foundation, evaluation criteria, research methods, diagnostics, indication). The basics of evidence-based psychotherapy are taught and will be deepened during the seminar. Further developments of the respective psychotherapies will be discussed.</p>		
Intended learning outcomes		
<p>Students have the opportunity to gain a broad knowledge of evidence-based therapeutic interventions in the lecture. The seminar conveys newer developments and individual intervention modules so that basic and in-depth knowledge of intervention psychology can be available at the end of the module. In order to achieve this goal, it is necessary to attend the respective lecture/seminar and to study the accompanying literature.</p>
