| <b>Contents</b>   |                          |   |
| In this module, the students acquire advanced knowledge of current research results and methods of Industrial and Organisational Psychology.  |                          |   |
| <b>Intended learning outcomes</b>   |                          |   |
| The students acquire profound theoretical and methodological knowledge in the research area of Industrial and Organisational Psychology. They especially focus on discussing research questions and designs on the basis of current research results and on deducing evidence-based measures for practice.  |                          |   |
| <b>Courses</b> (type, number of weekly contact hours, language – if other than German)  |                          |   |
| S (2)   |                          |   |
| <b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)  |                          |   |
| a) presentation (approx. 30 minutes) or b) written examination (approx. 60 minutes) or c) oral examination (approx. 15 minutes) or d) practical assignment (approx. 60 hours) or e) term paper (approx. 10 pages) or f) exposé (approx. 5 pages) or g) scientific poster (1 page DIN A0) or h) project report (approx. 10 pages) or i) case report (approx. 5 pages) or j) exercises in the form of questions to be answered during the seminar (approx. 0.5 pages per session)<br>An exposé is to outline the theoretical background, the research topic, the hypotheses and the method (independent and dependent variables, measuring methods, experimental design and procedure, subjects as well as intended statistical analysis) of a projected empirical study. A case report describes a disorder using the example of a (fictitious) patient; it includes a symptom report, a medical history, a behavioural assessment, a diagnosis and a treatment plan derived from this.<br>Language of assessment: German and/or English |                          |   |
