Contents

The module covers selected topics of basic research in psychology. Current issues of the research literature will be presented and discussed, as well as current methodical developments. The module focusses on basic foundations of mental life and behavior, that is, foundations that are independent of specific applied contexts, and can thus be applied to various contexts.

Intended learning outcomes

Students understand and evaluate research paradigms and results in a basic field of psychology, to utilize them for future occupational settings. They acquire theoretical and methodical competences regarding current research topics in these fields. The module prepares students for professional research activities and aims to convey knowledge that is transferrable to various applied psychological settings.
