| Clinical Psychology & Experimental Psychotherapy Research 1 | | o6-PSY-MA-KEP-1-152-mo1 |
| Module coordinator | | Module offered by |
| holder of the Professorship of Clinical Psychology, Biological Psychology and Psychotherapy | | Institute of Psychology |
| ECTS | Method of grading | Only after succ. compl. of module(s) |
| 5 | numerical grade | -- |
| Duration | Module level | Other prerequisites |
| 1 semester | graduate | -- |
| Contents | | |
| <p>In the seminar on project work, the students are divided into small groups to either elaborate on and present the topics from project work or examine and present a topic especially relevant to Clinical Psychology or to their planned Master's thesis. The students prepare for every session by reading corresponding literature which is subsequently discussed and examined in the group.</p> | | |
| Intended learning outcomes | | |
| No information on intended learning outcomes available. | | |
| Courses (type, number of weekly contact hours, language – if other than German) | | |
| S (2) | | |
| Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus) | | |
| <p>a) presentation (approx. 30 minutes) or b) written examination (approx. 60 minutes) or c) oral examination (approx. 15 minutes) or d) practical assignment (approx. 60 hours) or e) term paper (approx. 10 pages) or f) exposé (approx. 5 pages) or g) scientific poster (1 page DIN A0) or h) project report (approx. 10 pages) or i) case report (approx. 5 pages) or j) exercises in the form of questions to be answered during the seminar (approx. 0.5 pages per session)</p> <p>An exposé is to outline the theoretical background, the research topic, the hypotheses and the method (independent and dependent variables, measuring methods, experimental design and procedure, subjects as well as intended statistical analysis) of a projected empirical study. A case report describes a disorder using the example of a (fictitious) patient; it includes a symptom report, a medical history, a behavioural assessment, a diagnosis and a treatment plan derived from this.</p> <p>Language of assessment: German and/or English</p> | | |
