10	numerical grade	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	graduate	--
<b>Contents</b>		
<p>The module offers detailed insights into the principles of Clinical Psychology and Intervention Psychology with a focus on neuroscientific findings. It provides the students with disorder-specific knowledge of differential diagnosis, hypothesis and experimental findings as well as the methodological principles of this branch of Psychology. The lecture addresses characteristics of healthy and disturbed behaviour, especially in view of behavioural medicine. It discusses the neurobiological correlates of relevant disorders as well as therapeutic change. The seminar elaborates on the methods of Psychology as well as on current subject areas.</p>
