holder of the Professorship of Educational Psychology, holder of the Professorship of Developmental Psychology		Institute of Psychology
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
The module covers psychological disorders in childhood and adolescence relevant for psychological counseling (for example, family and parenting counseling, school psychology, psychological learning therapy). Main topics are basics of mental disorders in childhood and adolescence (clinical-psychological concepts, developmental and family psychological foundations, classification), specific disorders (diagnostic criteria, epidemiology, etiology, cognitive/learning, emotional, and social effects) as well as prevention and intervention concepts.		
Intended learning outcomes		
The students acquire application-related knowledge about mental disorders in childhood and adolescence, which is relevant for a practical or research-related psychological activity.
