Chair of Psychology I		Institute of Psychology
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
<p>This seminar provides comprehensive and in-depth knowledge of disorder-specific, psychotherapeutic treatment of adult patients. This knowledge includes the psychological-psychotherapeutic, psychobiological and neuroscientific basis of the various disorders with their respective characteristics and problems, as well as current knowledge of neuropsychotherapy. Scientifically approved and recognized psychotherapeutic procedures and methods are presented and discussed.</p>		
Intended learning outcomes		
<p>The students acquire the theoretically and empirically supported skills for independent case conception and treatment planning on the basis of previous diagnostics, differential diagnostics, classification and knowledge of the appropriate scientifically approved treatment guidelines in adult psychotherapy, taking into account different treatment settings as well as psychological and neuropsychological disorders.</p>
