Contents
During the work placements, the students gain insights into the occupational activity of a psychologist in a corresponding institution and/or in the private sector under the guidance of a supervisor with a diploma or a Master’s degree in Psychology. The students practice and improve the skills acquired in the courses.

Intended learning outcomes
The students learn to apply theoretical and practical aspects of the degree course in their work placements. They establish first contacts in the vocational world and therefore lay a foundation for their future choice of occupation and the specialisation of their Master’s degree programme.

Courses
P (0)

Method of assessment
placement report (approx. 8 pages) or two placement reports (approx. 4 pages each) if placement is divided up into two individual placements

Allocation of places
