1 semester | undergraduate | -- |

Contents

This module provides profound knowledge about theories, results, and methods in select areas of social psychology, such as group processes, stereotypes and prejudice or attractivity.

Intended learning outcomes

Students will be able to understand complex topics of research in social psychology. Students will deepen their ability to read scientific publications and to evaluate and communicate the theories, methods, and results that are reported in the scholarly literature. Also, students will acquire the ability to transfer results of fundamental research to applied problems.

Courses (type, number of weekly contact hours, language — if other than German)

S (2)
