Contents		
<p>In this seminar, the students learn to efficiently handle multimedia formats and contents in combination with electronic board systems. Theoretical principles of working with boards are mentioned. Aside from learning to acquire resources for the integration into board images, the students also learn how to produce such resources themselves. Afterwards, the students present self-created board images in the course, which are discussed in the group.</p>		
Intended learning outcomes		
<p>The students have basic knowledge of the handling of various electronic board systems. They have the requisite know-how needed to create pupil-centred learning environments and to integrate interactivity into teaching, for example for future teaching jobs.</p>
