Contents		
At the beginning of the seminar, the students acquire important knowledge of the technical development of websites. In the following, they become acquainted with tools for the sensible and effective organisation of websites. Afterwards, the students develop own projects and present them in the plenum.		
Intended learning outcomes		
The students have broad knowledge of the structure and function of web technologies such as HTML, CSS, PHP, databases and content management systems. They know tools for the efficient and sensible use of these technologies. They have acquired advanced knowledge of much-discussed concepts such as "Web 2.0" and "Accessibility" through practical application examples.
