Supervision of teaching degree students deals with current stress situations of supervisors. These situations might include conflicts resulting from relations with oneself, pupils, parents or the teaching staff. We will consider the problems presented from different angles and compile various solution approaches.

**Intended learning outcomes**

By working as supervisors, the teaching degree students advance their personal, subject-specific and social competencies. The students are able to re-evaluate conflictual relations in school, to evaluate interaction processes and problems in altered contexts, and to perceive themselves and others in a differentiated manner. They are more aware of their own and other person’s feelings and are able to develop alternatives for action.
