Contents		
Theoretical principles of diagnosing phonetic and phonological, lexical-semantic disorders, morphosyntactic disorders and disorders of language comprehension, informal and standardised treatments, differential diagnostics, diagnostic methods, evaluation (qualitative and quantitative), interpretation and deduction of speech therapeutic goals on the basis of exemplary cases.		
Intended learning outcomes		
<p>Self- and social competence: By examining diagnostic methods, the students have acquired a high level of diagnostic competence. This includes a responsible and client-oriented handling of diagnostic tools as well as the critical evaluation of own therapeutic actions.</p> <p>Methodological competence: Based on their knowledge of diagnostics and evaluation methods, the students are able to methodically plan and conduct disorder-specific examinations and analyse and interpret their findings.</p> <p>Subject and professional competence: The students know relevant informal and standardized (differential-) diagnostic methods of evaluating phonetic and phonological, lexical-semantic, morphosyntactic disorders and disorders of language comprehension. They are able to critically evaluate methods in view of quality criteria and to estimate limits and possibilities of diagnostics.</p>
