**Duration**
1 semester

**Module level**
undergraduate

**Other prerequisites**
--

**Contents**
Basic knowledge of classification, aetiology, pathogenesis and symptomatology of language, speech and communication disorders; basic knowledge of linguistics, provided that it is relevant for the identification, scientific explanation, diagnostics and therapy of disorders.

**Intended learning outcomes**
Self- and social competence: The students have acquired subject-specific knowledge from various disciplines (mainly speech therapy). They are able to examine the topic by critically evaluating models and theories. Methodological competence: The students analyse scientific texts in a hermeneutic way and critically discuss them in the plenum as well as in groups. Subject and professional competence: The students gain a detailed and interdisciplinary overview of language, speech, and communication disorders which are a topic of Speech and Language Pathology. They particularly acquire professional medical knowledge as a basis for scientific work and action in diagnostic/therapeutic practice.
