Contents
Knowledge of the historical development of Speech and Language Pathology; advanced knowledge of the preconditions of language and speech; principles of language acquisition and theories; introduction to the main clinical pictures of language and speech in the context of learning disabilities and behavioural abnormalities.

Intended learning outcomes
Self- and social competence: The students concentrate on studying contents of Speech and Language Pathology and neighbouring disciplines. Methodological competence: The students methodically acquire professional knowledge of Speech and Language Pathology and neighbouring disciplines and critically evaluate these disciplines in view of their application possibilities and requirements in theory and practice. Subject and professional competence: The students acquire indispensable basic knowledge of theory construction in Speech and Language Pathology, which is always interdisciplinary. They especially learn about pronunciation (respiration, phonation, articulation) and forms of dysarthria relevant to Speech and Language Pathology. Based on these principles, the students acquire knowledge of speech disorders in the context of learning disabilities and behavioural abnormalities.
