

Module title		Abbreviation
General basics of medicine: otolaryngology, audiology/ paediatric audiology and orthodontics/ maxillofacial surgery		o6-SH-MedAudKief-152-mo1
Module coordinator		Module offered by
holder of the Chair of Special Education III		Chair of Special Education III: Speech and Language Pathology
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Selected contents of ear, nose and throat medicine (including anatomy, physiology and pathophysiology, acoustics); diagnostics and therapy of ear, nose and throat diseases as well as basics of orthodontics and jaw surgery.		
Intended learning outcomes		
Self- and social competence: The students concentrate on studying contents of the medical (sub-)disciplines ENT medicine and audiology. Methodological competence: The students methodically acquire professional knowledge of the above mentioned disciplines and critically evaluate these disciplines in view of their relevance for speech therapy/logopaedics. Subject and professional competence: The students have basic knowledge of physical acoustics and the principal psychoacoustic parameters. They become acquainted with methods of acoustics and learn how to analyse and interpret the results. By learning about the function and adjustment of hearing aids, they are enabled to give advice to children and adults with impaired hearing. Furthermore, the participants of the seminar have acquired professional knowledge of the relevance and problems of speech therapy measures in the field of auditory rehabilitation. They acquire additional competencies in the field of orthodontics and jaw surgery which are necessary for assessing and identifying craniosynostosis and other craniofacial anomalies. Definition, classification according to aetiologic aspects, aetiopathogenesis, general symptomatology, symptomatology of isolated/syndromic craniosynostosis, surgical therapy, active remodelling techniques, timing of surgery, fronto-orbital advancement.		
Courses (type, number of weekly contact hours, language – if other than German)		
V (2) + V (2) + S (2)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
written examination (approx. 90 minutes) or term paper (approx. 15 pages) or presentation (approx. 20 minutes) with written elaboration (approx. 8 pages) or oral examination of one candidate each (approx. 20 minutes) Language of assessment: German and/or English
