

Module title		Abbreviation
Evidence-based placement 4		o6-SH-Prak4-162-mo1
Module coordinator		Module offered by
holder of the Chair of Special Education III		Chair of Special Education III: Speech and Language Pathology
ECTS	Method of grading	Only after succ. compl. of module(s)
5	(not) successfully completed	--
Duration	Module level	Other prerequisites
	undergraduate	--
Contents		
<p>The knowledge acquired in the theoretical and practical classes enables the students to carry out anamnesis and consultations, establish diagnoses and plan, organise, evaluate and document the therapy process. Patient-specific work: treatment, preparation and follow-up, monitoring and co-treatment. Carrying out of anamnesis, conversation techniques, written planning and documentation of logopaedic treatment, music therapy: Theory of music therapy (MT), definition, term definitions, active and receptive MT, occupational fields of music therapists, setting, practice of musictherapeutic interventions based on the case presentations of the students and further exemplary cases (clients: neurologically ill patients from the work placement): using musical instruments, using the voice (vocal improvisation, song), self-experience, developing therapist personality traits, enhancing the skills and means of the therapist, reflection/modification of personal requirements for carrying out logopaedic therapies, reflection/modification of important aspects of experience and action in a therapeutic context, paediatric audiology/speech therapy: Consultation: Voice/speech/swallowing in adults and children CHC (Comprehensive Hearing Center) I: paediatric-audiological consultation for children with impaired hearing: 1 Patient tour: CI (cochlear implant) technique, electrophysiology, audiometry CHC II: CI consultation for adults: 1 Patient tour: CI technique, electrophysiology, audiometry, polyclinic: general consultation ENT, neonatal hearing screening, tumour consultation.</p>		
Intended learning outcomes		
<p>Professional competence: The students plan and conduct therapeutic interventions and evaluate their effectiveness in view of ICF. They document their plans and results in written form. Implementation competence: The students successfully conduct a flexible logopaedic therapy. They determine the duration and prioritisation of individual practice areas in accordance with the patient's needs. They are able to provide individual and target-oriented assistance. If necessary, the students show model behaviour and apply different forms of feedback in a differentiated manner. Social-communicative competence: During therapy, the students adjust their verbal and non-verbal behaviour to the patient and disorder. They apply different conversation techniques. They show empathy. They maintain efficient contact with patients and relatives. Personal competence: The students' contact with patients becomes increasingly professional and they realise how their own personality plays an important role in the therapeutic process. They succeed in keeping an appropriate balance between closeness and distance in their relations with patients and relatives. The students develop self-confidence by becoming aware of their own strengths and weaknesses. Reflection competence: The students evaluate their own role as a therapist and the effectiveness of therapy. They analyse the effectiveness of their methodological and didactic means in an ICF-oriented way. They evaluate their own conversational behaviour and interpret the reactions of their counterpart. They include patients, relatives and the interdisciplinary team in the logopaedic therapy in a process-oriented manner.</p>		
Courses (type, number of weekly contact hours, language — if other than German)		
P (o) Number of weekly contact hours: no information on number of weekly contact hours available since placements are to be completed over the course of several semesters and during semester break		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
documentation of practical course (approx. 20 pages) Language of assessment: German and/or English
