Contents		
<p>This module describes the relevant connections between practical fields of action and special educational theories. It discusses, gives an overview of and focuses on specific questions and requirements of practice in a theory-driven manner. Holding and analysing practical counselling sessions, going on excursions to curative and special educational institutions or inspecting local institutions might be part of the module. Theory remains the essential frame of reference and an exclusive prioritisation, e.g. of counselling, recreation, living or work and occupation is mandatory.</p>		
Intended learning outcomes		
<p>The students have general knowledge of different fields of action as well as curative and special educational methods and are able to differentiate between these actions and methods. They are aware of practical problems and questions in the field of Curative and Special Education. The students evaluate the structural framework conditions of institutions in curative and special educational fields of action. They examine organisational requirements of institutions and services.</p>
