Contents		
<p>This module specialises on and examines a prioritisation on a higher level of abstraction on the basis of detailed texts. Possible areas of specialisation might be work and occupation, counselling or recreation and living. In this process, pedagogical core topics and problems are discussed and analysed. (Alternatively, a specialisation in another content area than in "Action and Methodology 1" and "Action and Methodology 2" is possible in the module "Action and Methodology 3". In this case, the contents and competencies/qualifications which have to be acquired correspond to the ones described in "Action and Methodology 1".)</p>		
Intended learning outcomes		
<p>The students are able to evaluate their own professional actions in a reasonable manner. They are able to independently analyse and evaluate problems in practice in a theory-driven manner. The students evaluate the structural framework conditions of institutions in curative and special educational fields of action and know theories and concepts of further development. They examine organisational requirements of institutions and services and know theories and concepts of further development.</p>
